This past July, on International Friendship Day, University Behavioral Center and Palm Point Behavioral Center paid surprise visits to each of the UHS Central Florida behavioral health treatment facilities.

Representatives from both facilities thanked each team for their support and contributions in providing care during the pandemic. Each hospital was gifted a yard sign with each facility logo on it and a special thank you to display along with some treats.

Without the support and quality care that each central Florida team provides we wouldn't be as great of a force in the Florida market place.
